

Product Specification Sheet

Product Name: Food-Grade Kavalactone Nanoemulsion
Product Code: CTKV30N1
Date of Issue: 03/01/2024
Revision: 1

Product Description:

A high-quality, clean-label food-grade kavalactone nanoemulsion designed for enhanced bioavailability and water dispersibility.

Specifications:

Parameter	Specification	Testing Method
Kavalactone Content	27.5 - 32.5 mg/ml	HPLC
Color	Yellow - Brown	Visual Inspection
pH Range	3.8 - 4.2	pH Meter
Particle Size (Dynamic Light Scattering)	Under 30 nm	DLS
Density	1.00 - 1.03 g/ml	Gravimetric
Solubility	Water dispersible	Visual/Functional Dispersion
Total Yeast and Mold	Not more than 100 CFU/g	Plate Count Method
Total Aerobic Bacteria	Not more than 100 CFU/g	Plate Count Method
Heavy Metals (Pb, Cd, Hg, As)	< 10 ppm (Total)	ICP-MS
Shelf Life	6 months (In concentrated form, unopened)	Stability Study
Storage Conditions	Store at room temperature, dark	Observational Compliance

Regulatory Compliance:

- Manufactured in accordance with Good Manufacturing Practices (GMP).
- Meets applicable food-grade quality and safety regulations.

Additional Notes:

- Final filtration at 0.2µm to ensure high purity and stability.
- NanoOptimizer™ formulation technology enables consistent particle size distribution.
